An angel in your home, is like being happy with
whatever you own and do.

Give your Protecting angel the freedom to
act and influence you in what way you want.

An angel is giving Happiness and a Safe life.
May everyone asking for the influence of angels
be blessed by them.
Give your Angel the freedom on how to guide you.

times.

Holy people, every religion knows a lot of them.
Choose with care.

Christ,
May he be our protection,
May he be our guide.
If you ask for a fish, he gives you a lot.
If you ask for better education, He gives
you good grades.

If you believe and ask, he fullfills.

Buddha said,
Stop your mind,
Stop thinking on everything.
Because it is suffering.

Live like seeing every moment new.
Live like experiencing time from
moment to moment, from day to day.

It is like being happy without all the suffering
we experience in thinking.

Vishnu,

The god who is one of the trinity.
The god responsible for upkeep and maintenance
of this Creation. The universe.

Vishnu,
The thousand names. The God with All-seeing.

May he bless those who pray to Him.
May he bless those who are devoted to Him

Those who are devoted to virtues.
From celibacy, non-violence, honesty, peace,
goodness, wisdom.

A devotion is like a shining radiance, giving light and
warmness to all in the surrounding.

May those with virtues be chosen to protect our
society.

May those with virtues be chosen to be our model.

May those who live and honor those who are in our
past.

May we honor our parents, grandparents, heroes,
saints. May we think good on them.

The departed ones. We honor them with flowers,
with prayers and good attention.

The deceased ones. May they rest in peace as their
task on earth has been fulfilled.
